# SHIPPING DG JUST GOT EZ!

Shipping dangerous goods doesn't have to be complicated! With EZ-Ship, creating fully compliant paperwork required to ship dangerous goods is a breeze!

## KEY FEATURES

- ✓ Without a doubt the easiest and most complete DG software available on the market
- ✓ Always up to date with the latest rules and regulations for air, sea and ground (IATA, IMDG, TDG, 49 CFR)
- ✓ Enter packages, items, and overpacks without having to worry about the order in which they are entered
- ✓ Easily print out all the markings required for each package on standard Avery labels
- ✓ Linked with Hazmat Systems' revolutionary SDS management solution

## WHY USE EZ-SHIP?

- ✓ **Extreme user-friendliness** - Just like our entire line of award winning software, EZ-Ship is unbelievably easy to use, greatly simplifying shipping dangerous goods
- ✓ **Unique features** - With our Visual Shipping Guide that shows you the correct markings to put on each package, and our HSI QR Codes, which will show drivers the placards necessary for each shipment, Hazmat Systems' EZ-Ship is truly the best!
- ✓ **Say goodbye to the book** - For aerial shipment, not only do you have access to state and operator variations, but we also added all the packing instructions. All the specific information you need to prepare your shipments is right at your fingertips!
- ✓ **Online software** - No need to install software, perform updates, maintain data and backups. We take care of everything for you.
- ✓ **Rules and regulations** - We are always up to date with all the rules and regulations regarding international shipping, ensuring full compliance for your shipments.
- ✓ **Affordable** - Our entire suite is priced affordably. Either register for a unlimited package for a low monthly fee, or pay-per-use using your credit card.

# VISUAL SHIPPING GUIDE

Taking the guess work out of labeling and markings

With our incredible Visual Shipping Guide, you will be able to instantly know which labels and markings need to be added to each package and overpack, eliminating costly mistakes.

- ✓ View in real-time all necessary markings for each packages and even overpacks, eliminating guess work
- ✓ Up to date with all international rules and regulations (air, sea, ground)
- ✓ See all the placards necessary for trucks picking up the shipment

## FEDEX DG READY

EZ-Ship Softwares Inc. is proud to announce it's integration with the new FedEx® DG Ready service, making shipping dangerous goods and hazardous materials with FedEx easier than ever! Using the FedEx DG Ready program to give you added confidence that your dangerous goods or hazardous materials shipment is ready to offer to FedEx Express, FedEx Ground, or FedEx Freight.

EZ-Ship Softwares has worked tirelessly to make sure you can take advantage of the DG Ready program, regardless of which FedEx software you use to prepare your shipment, and regardless of the number of parcels you have in your shipment. Make sure the solution you choose works for you!

## LITHIUM BATTERY SHIPPING GUIDE

Lithium batteries are used in many electric and electronic devices such as laptops, tools, etc. When shipping or importing lithium batteries, you must meet specific shipping requirements.

That's where we come in. Shipping lithium batteries is made easy with our lithium battery shipping guide, included with our visual shipping guide.

Simply answer a few questions and we'll tell you the right packaging, the required documents and the correct labels and marks required for your package.

## SDS MANAGEMENT

Let's face it, SDS management is a tremendous pain. From acquiring the original SDS from the manufacturer, to ensuring you have the latest ones, to getting them out to your employees...

So why continue dealing with the frustration of maintaining your SDS up to date? Hazmat Systems, a leading SDS management company in North America, can take care of all your SDS management needs, all for a ridiculously low yearly cost.

Best of all, EZ-SDS is linked with EZ-Ship, allowing you to simply choose the product you want to ship by name, part number or SKU, and the correct shipping information is filled in automatically

## CHOOSE HOW TO ACCESS YOUR SDS

### Online Interface

Our incredibly user-friendly online health & safety information system allows you to centrally manage all the information critical to your employees, including our SDS/MSDS management tool, our Learning Management System (LMS), our document management capabilities and so much more.

### Mobile Interface

Access your SDSs from any mobile device or tablet through our incredibly user-friendly mobile interface.

Simply type in a few letters of what you're looking for, and our EZ-Search tool will find it for you.

### SafeStation

Say goodbye to the binder with our SafeStation, a system designed from the ground up with one person in mind: the worker.

Give your workers access to key safety information, and so much more, directly from their working environment!

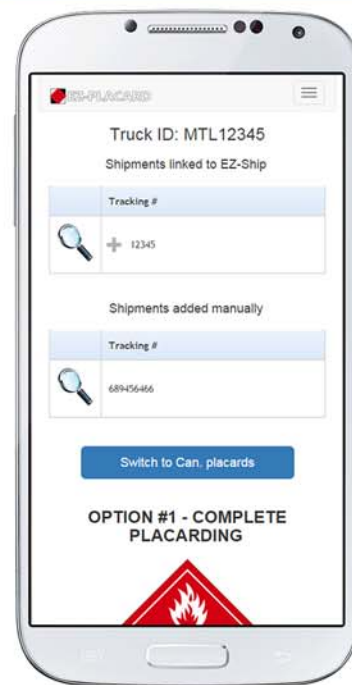

# EZ-PLACARD

## FREE MOBILE PLACARD CALCULATOR

Calculating the right placards can quickly become a nightmare... unless you have EZ-Placard! Our mobile app will allow you to calculate the placards required, even for mixed loads and LTL using our unique "virtual truck" approach.

### KEY FEATURES

- ✓ Extremely user-friendly and simple to use, even for someone who isn't computer savvy
- ✓ Works on any internet connected device (iPhone, Android, BlackBerry, Windows, etc.). Simply open your browser and go to [www.ezplacard.com](http://www.ezplacard.com)
- ✓ Add shipments and items by answering a few basic questions
- ✓ Ensure that all hazardous materials in the vehicle are compatible with our segregation checker
- ✓ View the emergency response guide (ERG) for all the items currently in your truck

*View all the dangerous goods inside your "virtual truck" and all the necessary placards in real-time*

### MAIN BENEFITS

- ✓ **Increase your productivity** since you don't have to waste time trying to figure out the correct placards
- ✓ Eliminates the risk of placarding and segregation mistakes, and therefore **eliminate fines**
- ✓ **Become autonomous** in calculating your placards
- ✓ Ensure compliance with both **American and Canadian regulations**, all in the same app

**START USING FOR  
FREE TODAY**  
**WWW.EZPLACARD.COM**

*If placards can be replaced by the dangerous placard, our system will show you both options*

*Creating a manual shipment is a breeze! Choose the UN number, proper shipping name, answer a few basic questions and you're done!*

## **EZ-LOCKOUT**

### LOCKOUT/TAGOUT

**COMING SOON**

## **EZ-DOCS**

### DOCUMENT MANAGEMENT

Imagine having all your documents and safety procedures managed in one central online location.

Now imagine your workers being able to access all these documents from any device (computer, laptop, smartphone, tablet) or on our SafeStations.

- ✓ Safety procedures
- ✓ Permits
- ✓ Forms
- ✓ Maps and layouts
- ✓ Intervention plans
- ✓ Or any other document that needs to be accessed by your employees

## **EZ-LMS**

### LEARNING MANAGEMENT SYSTEM

There are many Learning Management Systems, or LMS, out on the market, but only one that can harness the power of the SafeStation.

- ✓ Manage the learning of your employees: classrooms, enrollments, courses and instructors
- ✓ Facilitate learning of your employees by allowing them to take courses anywhere at any time, even on a SafeStation
- ✓ Manage and report government and industry-required training
- ✓ Easily build effective and customized exams
- ✓ Allow employees to manage their own training curriculum
- ✓ Rapidly see how your employees are doing in their training using the supervisor dashboard
